Date of Production 9 May 2025.

What is this product?

Type:

This product is a UCITS Fund. The Fund is a sub-fund of Harrington Cooper UCITS Funds ICAV, an open-ended umbrella Irish collective asset-management vehicle with segregated liability between its sub-funds formed in Ireland under the Irish Collective Asset-management Vehicles Act 2015 and was registered on 12 October 2018. The Fund's assets are held through its Depository, which is Northern Trust Fiduciary Services (Ireland) Limited. Further information in relation to the Fund should be obtained from your financial advisor or distributor or is available at <https://harringtoncooper.com/harrington-cooper-asset-management-funds/> in English.

Term:

This Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time in line with the constitutional documents of the Company. For full investment objectives and policy details, please refer to the Investment Objectives and Investment Policy in the Fund's Supplement to the Prospectus, which are available at <https://harringtoncooper.com/harrington-cooper-asset-management-funds/>.

Objectives:

The investment objective of the Fund is to achieve long-term capital appreciation.

Investment Policy:

The Fund will invest primarily in exchange-traded equities of European Issuers. Such investments will be made primarily in standard stocks and in high-growth small-caps and mid-caps and may include closed-ended real estate investment trusts ("REITs"). The investment universe for this fund includes exchange-traded equities whose registered offices are in countries which are incorporated in Europe, but excluding the United Kingdom of Great Britain and Northern Ireland. The relevant universe is made up of around 1,000 securities. The Investment Manager's process is predominately internally driven and is defined into four steps: idea generation; fundamental equity analysis; portfolio construction and risk management. The Investment Manager focuses on long-term qualitative and quantitative data and valuation techniques, aiming to invest in companies that will, over the long-term, grow and achieve significant value. Therefore, these companies should find it easier to grow revenues and cash flow per share at a higher rate than the market. The Investment

Manager seeks to invest in quality companies with strong market positions, high barriers to entry, above average profitability, strong balance sheets and those managed by strong management teams; such management teams having a strong operating track record and a proven history of capital allocation. The companies the Investment Manager focuses on tend to trade at full or even rich valuations, so the Investment Manager looks to buy into these stocks when they are out of favour. Opportunities occur when market participants react suddenly or strongly to short-term issues, causing prices to drop and ignore positive long-term trends and growth opportunities that create value in potential investments. The Investment Manager searches for companies where the forecasted growth potential is not; or not yet entirely priced in. The Investment Manager specifically aims to identify fully, or partly "undiscovered" structural growth as opposed to growth momentum, searching for stocks demonstrating structurally above average earnings and cash flow growth. In terms of ESG considerations, the Fund aims to achieve long-term value growth with due regard to socially and environmentally responsible investment criteria. Environmental and social characteristics are taken into consideration when making investment decisions, including for example climate change and pollution in the area of environmental, as well as working conditions, health and safety in the area of social. In addition, aspects in the area of corporate governance are taken into account.

Fund Currency:

The base currency of the Fund is GBP.

Income:

The shares will be accumulating. All income will be re-invested.

Subscription and Redemption:

Investors may buy and sell shares on any day (except Saturdays, Sundays and public holidays) on which the retail banks in Ireland and Frankfurt am Main are all general open for normal banking business. An application must be submitted to the administrator, Northern Trust International Fund Administration Services (Ireland) Limited, by 12 noon (Irish Time) on the business day immediately prior to the business day of the purchase or sale.

Intended retail investor:

The Fund is suitable for retail and institutional investors seeking a medium to long term investment. Before investing, investors should satisfy themselves that their attitude to risk matches the risk profile of an investment in this Fund. The NAV per share of the Fund will be published daily and made available on the internet at Morningstar and will be updated following each calculation of NAV.

What are the risks and what could I get in return?

Risk Indicator

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at <https://harringtoncooper.com/harrington-cooper-asset-management-funds/>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years			
Investment: GBP 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.			
Stress	What you might get back after costs Average return each year	2,400 GBP -76.00%	2,980 GBP -21.51%
Unfavourable ¹	What you might get back after costs Average return each year	8,740 GBP -12.62%	9,860 GBP -0.29%
Moderate ²	What you might get back after costs Average return each year	10,800 GBP 7.95%	14,040 GBP 7.03%
Favourable ³	What you might get back after costs Average return each year	13,410 GBP 34.15%	17,280 GBP 11.56%

¹ This type of scenario occurred for an investment between December 2023 and December 2024.
² This type of scenario occurred for an investment between April 2018 and April 2023.
³ This type of scenario occurred for an investment between May 2016 and May 2021.

What happens if Harrington Cooper Asset Management Limited is unable to pay out?

You may face a financial loss should the manufacturer default on their obligations, there is no compensation or guarantee scheme in place which may offset, all or any of, this loss. The assets of the Fund are held with its Depositary, Northern Trust Fiduciary Services (Ireland) Limited, which is a separate company. Should the Fund default, the Depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

Investment: GBP 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	25 GBP	169 GBP
Annual cost impact (*)	0.3%	0.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.3% before costs and 7.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 GBP
Exit costs	We do not charge an exit fee for this product.	0 GBP
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.20% of the value of your investment per year. This is an estimate based on actual costs over the last year.	20 GBP
Transaction costs	0.05% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	5 GBP
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This product does not have any performance fees.	0 GBP

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The fund has daily liquidity. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The Fund is not intended for short term speculation purposes.

How can I complain?

As a shareholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the management company promptly and effectively. You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available from the Management Company, Email: investor@harringtoncooper.com, Address: Harrington Cooper Asset Management Ltd., Block A, One Park Place, Upper Hatch Street, Dublin 2, Ireland

Other relevant information

We are required to provide you with further documentation, such as the product's latest Prospectus, Past Performance and Annual and Semi-annual reports which are available at <https://harringtoncooper.com/harrington-cooper-asset-management-funds/> from the Administrator or the Investment Manager in English free of charge. The cost, performance and risk calculations included in this KID follow the methodology prescribed by EU regulation. Past performance for the previous 10 years and historical performance scenarios are available below: <https://docs.fundconnect.com/GetDocument.aspx?clientid=eudoetn6-ahvi-eyfi-n60i-tj1i5qvyx9p&isin=IE000L3UUPC8&lang=en-GB&type=KPP> https://documents.feprecisionplus.com/priip/mjh/prp/MJ2ZERO_AUMDE_GB_en-GB_4603578_MJH_Harrington_MP.pdf
